

Educational Visiting

Picking up where NPS
MedicineWise left off

If you would like independent, evidenced based education delivered free to your practice by expert facilitators, sign up for a face-to-face and virtual session at a time that suits you. This is a Government funded program, free from any pharmaceutical influence.

- Interactive and designed as a group learning activity
- Upskill your clinical team on a therapeutic area
- Delivered by an expert facilitator
- You choose the time convenient for your practice
- Access high quality, endorsed resources for use with your patients
- Improve the consistency of clinical care
- 1 hour Reviewing Performance CPD per session
- 2.5 hour optional Measuring Outcomes activity

Current program : Oral anticoagulation

This program offers practical guidance and the latest evidence to confidently manage stroke prevention in atrial fibrillation patients.
