

Brisbane North PHN general practice support

How we can help you and your practice

phn
BRISBANE NORTH

An Australian Government Initiative

At **Brisbane North Primary Health Network (PHN)**, our Primary Care team partners with general practices and Aboriginal and Torres Strait Islander health services to support and empower them to deliver high-quality, accessible and integrated care across our region.

How we work with your practice

Tailored support

Customised to your practice's size, priorities and workflow.

Practical expertise

Advice informed by real-world experience in general practice.

Responsive assistance

We connect you quickly with the right team member for your area of need.

Timely information

Important updates on reforms, clinical alerts, digital systems and key changes affecting practice operations.

We provide targeted support across key practice areas:

Digital health

Digital readiness and supporting the use of key digital health tools.

Immunisation support

Boosting local coverage and delivering targeted alerts.

Accreditation planning

Supporting practices to meet accreditation requirements.

Primary care reform

Preparing for and implementing major reform initiatives.

Workforce development

Training, education, networking events and commissioning opportunities.

Continuous quality improvement

Providing coaching, resources, project opportunities and clinical tools to drive quality improvement.

Flexible ways to connect

Support is available through practice visits and online meetings, as well as our dedicated Practice Support email, phone number and website.

Stay connected

Brisbane North PHN provides relevant, timely information to our newsletter subscribers and through our online channels.

Our monthly digital publication for practice managers, nurses and staff supports better management and administration of general practice.

General practice mailing list

We also share important updates via ad-hoc electronic direct mail (eDM) including:

- clinical alerts
- funding opportunities
- education opportunities.

Registered practices automatically receive these updates through their main business email.

[Email to subscribe](#)

A weekly digital publication for GPs, GP registrars and practices, featuring clinical updates, PHN programs, professional development opportunities and local news. Published every Thursday.
